Summary

Junior Frontend Developer with experience in React and React Native, focused on building responsive and performant user interfaces. Skilled in API integration, state management, and modern frontend development practices.

Education

KCMIT, Kathmandu, Nepal

Expected 2026

Bachelor's in Computer Applications

Relevant Coursework: Database Management, Web Development, Software Engineering

Experience

MultiplAI

Sept 2025 – Present

Frontend Developer

- Developed a cross-platform mobile application using React Native, focusing on performance and smooth user experience.
- Optimized API calls by implementing caching with TanStack Query, reducing redundant network requests.
- Improved code maintainability by restructuring components and implementing state management with React Redux.
- Tested and validated APIs using Postman and Swagger to ensure reliable frontend-backend integration.

Selected Projects

E-commerce Application

GitHub: github.com/MossHeadKushal/E-commerce-Site

- Built a full-stack e-commerce platform using React, Express, and MongoDB.
- Implemented authentication, product listing, filtering, and cart functionality.
- Integrated REST APIs for dynamic data handling and improved user interaction.

Netflix Clone

GitHub: github.com/MossHeadKushal/Netflix-Clone/

- Developed a responsive Netflix-style UI using React and Firebase.
- Implemented dynamic content rendering and user authentication.
- Fetched and rendered movie data from the TMDB API for dynamic content display.

Skills

Programming Languages: TypeScript, JavaScript, Java, SQL, HTML, CSS

Technologies & Tools: React, Next.js, React Native, Expo, Node.js, Express.js, MongoDB, PostgreSQL, Tailwind CSS, NativeWind, React Redux, TanStack Query, OAuth, Google Maps Integration, Postman, Swagger, Git, Linux
